

Advance Industrial

毅華實業

Item Number – M-STLA11

Usage in Karat¹

AG925

Colour White

Commercial Composition CU 95%, ZN 5%

Properties

Hardness

100 (Hv)

Density

10.1 (gm/cm³)

Handcraft, Wire Drawing, Sheet Rolling, Stamping

¹When melting alloys, inert gases or unsaturated oxygen flames should be used to protect the alloy and prevent oxidation of the alloy

²Depending on the thickness of the product, select the appropriate flask temperature
